Career Exploration with AI Guide

Choosing the right career path can feel overwhelming, but the right questions can help you discover your best-fit options. Here's a collection of sample prompts and insights you can use as a starting point to explore careers, industries, and future opportunities.

1. "I'm a [degree major] student who loves [passions] and is great at [skills]. What careers fit me?"

Your degree, passions, and skills are a powerful combination. Ask this question to identify **10 specific career paths** aligned with your strengths.

2. "What does a typical day look like for a [job title]?"

Understanding the **day-to-day responsibilities** helps you picture yourself in the role. Ask about:

- Common tasks
- Work environment
- Key projects
- Required qualifications (education, certifications, experience)

3. "What are the pros and cons of working in [industry]?".

4. "Which industries are emerging and full of opportunities?"

5. "What skills are in high demand across industries?"

6. "Should I choose [Field A] or [Field B]?"

Compare based on:

- Job outlook & salaries
- Lifestyle (remote vs. in-office, travel needs)
- Required education or certifications
- Growth potential

7. "How can I transition to a new career in [desired field]?"

8. "What's the growth outlook for [specific field]?"

9. "What careers might exist in 10 years?"

10. "What are some alternative careers for someone with [your background]?"

11. "What skills do I need for [specific field], and how can I develop them?"

12. "What are some overlooked but rewarding careers?"

13. "How can I leverage my degree and experience to pivot?"

Build on your foundation:

- **Highlight transferable skills** (communication, leadership, analytics)
- **Reframe experience on your resume** to match the new role
- **Use networking** to learn and get referrals

14. "Where do [specific roles] typically work?"

15. "I'm interested in [role/industry]. Can you ask me 5 questions and suggest careers?"

Questions might include:

- Do you prefer working with people or data?
- Do you enjoy routine or dynamic tasks?
- Do you value creativity or structure?
- Do you want to travel for work?
- Do you thrive in collaborative or independent settings?

Answers can lead to suggested **roles and matching college majors**.

✅ **Pro Tip:** Use these prompts in a journaling session, career coaching conversation, or with AI tools like ChatGPT to generate personalized career insights.
